MIRACLE WATER SITES

Lourdes, France

Tlacote, Mexico

Nordana, Germany

Nadana, India

There are several miracle water sites in the world where thousands of people visit each year to receive healing from drinking the water. It has been reported that the water contains Dissolved Hydrogen.

Benefits of Hydrogen

"Hydrogen is extremely unique since it has the capability to act at the cellular level. Hydrogen is qualified to cross the blood brain barrier, to enter the mitochondria, and even has the ability to translocate to the nucleus under certain conditions."

"There are also few side effects involving hydrogen, thus making hydrogen a perfect medical gas candidate for the convention of novel therapeutic strategies against cardiovascular, cerebrovascular, cancer, metabolic, and respiratory diseases and disorders."

Our body is made of molecules

Energy is everything and everything is energy

After a 40 year search, a subatomic particle with the expected properties was discovered in 2012 by the ATLAS and CMS experiments at the Large Hadron Collider (LHC) at CERN near Geneva, Switzerland. The new particle was subsequently confirmed to match the expected properties of a Higgs boson. The Higgs field is **a field of energy that is thought to exist in every region of the universe**. The field is accompanied by a fundamental particle known as the Higgs boson, which is used by the field to continuously interact with other particles, such as the electron.

Our body is made of energy

When there is a problem with our body's systems, organs or cells, it has to do with the energy in our body.

That's why we need to charge the body and increase its frequency so that our cells can work more efficiently.

Enhanced 7Wonders Water

By blowing Terahertz frequency on 7Wonders Water, the water becomes energized and this may help the cells in our body to function more efficiently.
